

RISE Charter School District #562

REGULAR BOARD MEETING FY27

Monday, August 17, 2026

Agenda Item: 8f

Revise Policy 3500: Student Health/Physical Screenings/Examinations

=====

This policy is being presented to the Board for review and approval of proposed revisions regarding student health services and parental consent.

The revisions address changes in Idaho law regarding when schools may provide certain health services without prior parental consent. These include non-emergency first aid and changes to the types of emergency care that may be provided without parent consent. The update also clarifies that parents cannot be required to provide a blanket consent for health care services.

This is a recommended update to a required policy.

The Board is asked to review the proposed revisions and consider approval of the updated policy.
