

**RISE Charter School District #562**

**REGULAR BOARD MEETING FY26**

**Monday, June 29, 2026**

**Agenda Item: 8d**

**Revise Policy 7400P4: Miscellaneous Procurement Standards – General  
Procurement Standards for Federal Awards**

=====

ISBA added a lot of new material related to purchases with federal funds. There's a new paragraph about what to do in cases where an item that was ordered is unavailable and a substitute needs to be found. A sentence about recordkeeping was removed because it is now covered in more detail in a new subsection about recordkeeping related to federal purchases. That new paragraph also describes materials that must be retained related to purchasing, including requirements specific to non-competitive purchases.

There are also new subsections on terminating contracts and on changing contract costs when related expenses change. Additional subsections have also been added on construction contracts, Byrd anti-lobbying certificates, and requirements related to the Clean Air Act.

**This update from ISBA is a required update to a required item.**

These amendments are presented to the Board for review and approval.
