

RISE CHARTER SCHOOL

Policy 8300P(1): Emergencies and Disaster Preparedness Procedure

Status: ADOPTED

Original Adopted Date: June 14, 2021

Last Revised Date:

Last Reviewed Date:

Emergency and Disaster Preparedness

RISE Charter School has developed procedures for dealing with existing and potential student and school crises. ~~The Crisis Management Plan should include Crisis Response Procedures and Critical Incident Procedures. An important component of the Plan is a set of interagency guidelines with various city and county agencies to aid timely communication and coordination of services between the agencies and the Charter School. Crisis Response Procedures guide staff in responding to more frequently occurring crises, such as deaths of students or teachers and other traumatic events, which can affect the school community for days.~~ These plans provide an organized approach to helping students. They provide direction to staff members on when and how to refer a student for help. They provide an approach to collaborative decision-making in dangerous and stressful situations. An important component of these plans is a set of inter-agency guidelines with various city and county agencies to aid timely communication and help coordinate services between the agencies and the school.

The emergency response plans may included crisis response procedures and critical incident procedures. Crisis response procedures guide staff in responding to more frequently occurring crises, such as deaths of students or teachers and other traumatic events. These procedures are intended to be time-limited, problem-focused interventions designed to identify and resolve the crisis, restore equilibrium, and support productive responses. The crisis team ~~uses crisis response procedures to help~~s administrators:

1. Gather information;
2. Establish communication with families;
3. Disseminate accurate information to faculty and students;
4. Intervene directly with students most likely to be affected;
5. Increase the available supportive counseling for students and staff; and
6. Guide students in helpful **appropriate** ways to ~~remember~~ **commemorate** the deceased.

Critical Incident Procedures help school personnel handle potentially dangerous events, such as a natural disaster or an armed intruder in a school, and other life-threatening events. The Charter School has developed a Plan which These procedures shall emphasizes a coordinated interagency approach. A Code Blue plan has been established in all school buildings to provide a uniform method of warning staff and students of high-risk situations involving imminent, potentially life-threatening danger to life or limb.

RISE Charter School's Crisis Management Plan procedures provide benefits for students, parents, and the Charter School. The procedures provide an organized, systematic method for helping students. Staff members know under what circumstances and how to refer a student for help. Crisis Team members operate within specific guidelines to make collaborative decisions and share the responsibility for these often difficult, stressful situations. Parents and other members of the community are assured that the Charter School has established procedures which better prepare employees to respond to crises.

The interagency agreements have fostered stronger collaborative relationships and have led to improved communication about students and family events that could impact the schools.

In the event of an emergency, employees are expected to remain at their worksite to ensure the safety and security of students under their care and/or the school's care until otherwise directed by the school administrator or person in charge. Those employees who have a child in the school should have arrangements in place for the care of their child by others until they can be released from their duties. Employees are strongly encouraged to take all steps necessary to provide for the well being of their family in advance of any major disaster. This will hopefully moderate fears and concerns sufficiently to permit rapid and effective completion of assigned tasks to ensure the well-being of students and staff.

Possible Hazards in Idaho

An emergency is a sudden, unexpected occurrence requiring immediate action to stabilize a situation. Emergencies may affect school facilities and/or school transportation and may prevent use for an unspecified period of time.

The Crisis Management emergency operations Plans should address a range of events and hazards caused by nature or humans, such as:

1. Severe weather;
2. Bus crashes;
3. Bomb threats;
4. Student or staff deaths;
5. Chemical or hazardous material spills;
6. Fire;
7. School shootings;
8. Medical emergencies;

9. Acts of terror or war; and
10. Natural disasters such as earthquakes, tornados, floods, and volcanic eruptions.

~~Direct responsibility for what may occur immediately following a response to a 911 call will lie with the first responders, such as police or fire department. The Charter School's first responsibility is to ensure the immediate safety of students and staff by activating the appropriate Crisis Management Plan.~~

The Charter School's first responsibility is to ensure the immediate safety of students and staff by activating the appropriate Crisis Management Plan.

To assist and expedite setup, the Board directs that emergency plans and procedures be developed, implemented, and maintained for all Charter School facilities, and school buses, and that:

- ~~1. All employees be informed about the emergency plans and procedures to be followed at their work site to ensure their safety and the safety of others;~~
- ~~2. Students and employees practice the emergency procedures implemented at their school or work site;~~
- ~~3. Parents are advised of the emergency procedures developed at the school their child attends by September 30;~~
- ~~4. If materials and supplies beyond those normally provided by the Charter School are to be kept on hand to augment the school emergency procedures, then it shall be the responsibility of each school to obtain and maintain such supplies in good order; and~~
- ~~5. This policy is reviewed annually.~~

1. The School's plan be developed in coordination with local school staff and local emergency response agencies.
2. The School's plan comply with the Idaho School Safety and Security Advisory Board's guidance.
3. All employees be trained annually on the emergency operations plans and procedures to be followed at their work site to ensure their safety and the safety of others. This training shall comply with the guidelines set by the Idaho School Safety and Security Advisory Board;
4. Students and employees practice the emergency procedures implemented at their school or work site.
5. Parents are advised of the emergency procedures developed at the school their child attends by September 30 of each year.
6. If materials and supplies beyond those normally provided by the Charter School are to be kept on hand to augment the school emergency procedures, then it shall be the School's responsibility to obtain and maintain such supplies in good order.

7. The School's plan be reviewed annually by the building principal. The building principal shall work with school staff and emergency response agencies to update and make other changes to these plans when needed.
8. This policy is reviewed annually.

Sequence of Crisis Management

The Crisis Management Plans should include the sequences of managing a disaster. Those sequences are as follows:

1. Mitigation and Prevention addresses what the Charter School can do to reduce or eliminate risk to life and property;
2. Preparedness focuses on the process of planning for the worst-case scenario;
3. Response is devoted to the steps to take during a crisis; and
4. Recovery deals with how to restore the learning and teaching environment after a crisis.

~~Crisis management is a continuous process in which all phases of the plan should be reviewed and revised. Additional sequence steps to analyze in preparing the Crisis Management Plan are described below.~~

Mitigation and Prevention

The goal of mitigation is to decrease the need for response rather than simply increasing response capability. ~~as opposed to simply increasing response capability.~~

1. Connect with community emergency responders to identify local hazards;
2. Review the last safety audit to examine school buildings and grounds;
3. Determine who is responsible for overseeing violence prevention strategies in the each school;
4. Encourage staff to provide input and feedback during the crisis planning process;
5. Review incident data;
6. ~~Determine~~ Identify any major problems in your school with regard to student crime and violence;
7. Assess how the school addresses these problems; and
8. Conduct an assessment to determine how these problems, as well as others, may impact your the Charter School's vulnerability to certain different types of crises.

Preparedness

Good planning will facilitate a rapid, coordinated, effective response when a crisis occurs.

1. Determine what crisis plans exist in the School and community;
2. Identify all stakeholders involved in crisis planning;
3. Develop procedures for communicating with staff, students, families, and the media;
4. Establish procedures to account for students during a crisis;

5. Gather information about the school facility, such as maps and the location of utility shutoffs; and
6. Identify the equipment that needs to be assembled-gathered to assist staff in a crisis.

Response

A crisis is the time to follow the crisis plan and make use of your preparations.

Determine if a crisis is occurring;

1. Identify the type of crisis that is occurring and determine the appropriate response;
2. Activate the incident management system;
3. Ascertain whether an evacuation, reverse evacuation, lockdown, or shelter-in-place needs to be implemented;
4. Maintain communication among all relevant staff at officially designated locations;
5. Establish what information needs to be communicated to staff, students, families, and the community;
6. Monitor how emergency first aid is being administered to the injured; and
7. Decide if more equipment and supplies are needed.

Recovery

During recovery, return to learning and restore the infrastructure as quickly as possible.

- ~~1. Strive to return to learning as quickly as possible;~~
2. Restore the physical plant as well as the school community;
3. Monitor how staff are assessing students for the emotional impact of the crisis;
4. Identify what follow up interventions are available to students, staff, and first responders;
5. Conduct debriefings with staff and first responders;
6. Assess curricular activities that address the crisis;
7. Allocate appropriate time for recovery;
8. Plan how anniversaries of events will be commemorated; and
9. Capture “lessons learned” and incorporate them into revisions and trainings.

Prepare for Immediate Response

When a crisis occurs, quickly determine whether students and staff need to be evacuated from the building, returned to the building, or locked down in the building. Plan action steps for each of these scenarios.

~~**Evacuation** requires all students and staff to leave the building. The evacuation plan should include backup buildings and other locations. Evacuation plans should include contingencies for weather conditions. Additionally, plans should include transportation options for students with disabilities.~~

~~**Reverse Evacuation** requires all students and staff to leave the outdoors and return to the building quickly. Once staff and students are safely in the building, you may find the situation calls for a lockdown.~~

~~**Lockdowns** are appropriate when a crisis occurs outside of the school and an evacuation would be dangerous. A lockdown may also be appropriate when there is a crisis inside and movement within the school will put students in jeopardy.~~

EVACUATION

Fire / Smoke / Gas Leak / Chemical Spill / Bomb

Evacuation requires all students and staff to leave the building.

- Leave the building through the safest nearby exit.
- Proceed to the designated on-campus rally point.
- If the on-campus rally point is unsafe, proceed on foot to the designated off-campus rally point.
- Perform a head count and report back as directed.
- Monitor the intercom, radios, and phone for further instructions.
- For an area-wide hazard, follow the school's relocation plan, including transportation to an alternate relocation site when necessary.
- Evacuation plans should include backup buildings or other locations, contingencies for weather conditions, and transportation options for students with disabilities.

SECURE & TEACH

Potential Threat: Human / Animal / Medical

Secure and Teach may be appropriate when a potential threat exists but there is no immediate threat requiring evacuation or lockdown.

- Close and lock external entrances.
- Perform a head count and report back as directed.
- Keep hallways clear.
- Continue teaching and remain in the classroom.
- Stay in the classroom unless otherwise directed.
- Monitor the intercom, radios, and phone for further instructions.
- For a medical situation, provide first aid, CPR, and/or use the AED when appropriate and trained to do so.

SHELTER IN PLACE

Airborne / Radioactive / Natural Disaster

Shelter in Place requires students and staff to remain inside the building and move to designated shelter areas when conditions outside make remaining in regular classrooms unsafe.

- Move to designated Shelter in Place room(s).
- Seal windows and doors when directed.
- Shut off HVAC systems and close vents when appropriate to the hazard.
- Perform a head count and report back as directed.
- Monitor the intercom, radios, and phone for further instructions.
- For earthquakes, **DROP / COVER / HOLD**.

LOCKDOWN

Definite Threat: Human / Animal

A lockdown is appropriate when a crisis occurs outside of the school and evacuation would be dangerous. A lockdown may also be appropriate when there is a crisis inside the school and movement within the school will put students or staff in jeopardy.

- Close and lock external entrances.
- Close and lock internal doors.
- Cover windows and door windows when possible.
- Move to the designated area along the door-side wall.
- Remain silent and out of sight.
- Perform a head count and report back when it is safe and as directed.
- Monitor the intercom, radios, and phone when possible without compromising safety.
- If a lockdown is breached or an immediate threat enters the classroom, follow emergency response procedures, including **RUN / BARRICADE / FIGHT**, as appropriate to the circumstances.

Define Roles and Responsibilities

How will the school operate during a crisis? Define what should happen, when, and at whose direction; that is, create an organizational system. This should involve many of the school staff. Important tasks will be neglected if each person is responsible for more than one function. School staff should be assigned to the following roles:

1. School commander;
2. Liaison to emergency responders;

3. Student caregivers;
4. Security officers;
5. Medical staff; and
6. Spokesperson.

The Charter School will work with law enforcement officers and emergency responders to identify crises that require an outside agency to manage the scene, such as fires, bomb threats, and hostage situations.

Assigned Roles for School Staff During a School Emergency

Executive Director:

- 1.—Direct all operations of the Charter School in the management of the emergency;
- 2.—Gather information on all aspects of the emergency for use in making appropriate decisions about the management of the emergency;
- 3.—Assess the emergency situation and assign tasks based on the overall needs for managing the emergency;
- 4.—Direct all activities of Charter School and school staff in the management of the emergency;
- 5.—Stay in contact with the leaders of the emergency service agencies and the law enforcement agencies working with the emergency;
- 6.—Authorize the release of information to the public;
- 7.—Keep the Board informed of emergency status; and
- 8.—An employee assigned by the Executive Director will assist the Executive Director and serve in this capacity in the absence of the Executive Director.

Administration/Designated Staff _____:

- 1.—From the Charter School offices, directs all Charter School office staff;
- 2.—Establish and maintain lines of communication between the Charter School and the emergency site. For off campus emergencies, lines of communication must be established for the involved school, as well. Such lines of communication may also include couriers;
- 3.—Manage the teachers and classified staff from the Charter School office;
- 4.—Assign resources (persons and materials) to various sites for specific needs;
- 5.—Communicate with other locations in the Charter School during the emergency period; and
- 6.—Arrange for the delivery of outside services and materials needed for the management of the emergency.

Administration/Designated Staff _____:

- 1.—Establish and implement a plan for the crisis. Form and coordinate crisis teams;
- 2.—Maintain an active file of helping agencies within the community. The names of contact persons will be included;
- 3.—Maintain an active file of community persons, such as counselors, doctors, psychologists, and ministers. Information regarding services and follow-up services will be included;
- 4.—Create letters to notify parents of continuing care that is available to students. Available care will include local and State agencies, as well as school-based care;
- 5.—Develop an information sheet for parents, teachers, and others. Information will include topics such as talking with students, signs of depression, and others relating to crisis stress;
- 6.—Develop a schedule for activities for the first day of school following the crisis with support services;
- 7.—Maintain follow-up activities such as referrals for help outside the school services setting;
- 8.—Report immediately to the local hospital if students or adults are being sent to that hospital for treatment. If more than one hospital is admitting students or adults, coordinate communication among those hospitals and the Charter School. Assign and direct other Charter School staff to assist in those hospitals;
- 9.—Coordinate communication between the hospital and the Charter School office;
- 10.—Meet and talk with the parents of students and spouses of adults who have been admitted to the hospital; and
- 11.—Be aware of the requirements of the Health Insurance Portability and Accountability Act and provide all appropriate information based on those requirements.

Administration/Designated Staff _____:

- 1.—Develop plans and scenarios in which Charter School technological resources can be dispersed effectively to emergency sites;
- 2.—Handle overflow telephone calls at the emergency site;
- 3.—Make recommendations regarding the restarting of school activities from support services;
- 4.—Serve as a liaison between the emergency school site and the emergency support teams that may be needed;
- 5.—Coordinate and direct communication between the emergency site and county and State agencies;
- 6.—Obtain and direct the placement of generators when power must be restored for a temporary period;
- 7.—Coordinate and direct the acquisition of water when there is a disruption of water and sewer services;

- 8.—Coordinate and direct contact with emergency medical services, local police and sheriff's departments, fire departments, and the highway patrol;
- 9.—Coordinate and direct search-and-rescue operations when needed;
- 10.—Supervise the use of the school computer system for communication with the School office and electronic bulletin board system;
- 11.—As needed, report various sites involved in the communication system if there are problems in that system; and
- 12.—Provide technical support for all communications hardware and software.

Administration/Designated Staff_____:

- 1.—Plan and initiate arrangements for food for building personnel;
- 2.—Notify risk management of the emergency;
- 3.—Coordinate with director of transportation as needed; and
- 4.—Arrange for the payment of monies needed to respond to emergency situations.
Authorize purchases and payments for such resources.

Director of Community Relations:

- 1.—Collect and disseminate information to the media. Be aware of deadlines, the need for information accuracy, and other issues related to the media and the performance of their jobs;
- 2.—Plan and coordinate press interviews to help the news media meet deadlines;
- 3.—Create and disseminate press releases;
- 4.—Respond to rumors through the dissemination of accurate information;
- 5.—Organize a network of key people, such as police, fire, and health authorities, within the community through which accurate information can be disseminated;
- 6.—Be aware of the requirements of the Freedom of Information Act/Idaho Public Writings Act and provide all appropriate information based on those requirements;
- 7.—Plan and coordinate live and taped presentations. Press conferences can go out live. Updates for the public can be taped and aired as needed;
- 8.—Coordinate information to be shared with school and Charter School personnel during and after the crisis;
- 9.—Act as a liaison between the media and Charter School personnel whose attention must be focused on the immediate problems of managing the crisis without constant interruption;
- 10.—Arrange interviews for the media with key school and Charter School staff who are involved in the emergency or who act as spokespersons for the Charter School; and
- 11.—Establish and maintain a clearinghouse for calls and requests from schools, the community, parents, and the media and refer those to the appropriate person or place.

Administration/Designated Staff (as applicable):

In the event of a school crisis:

- 1.—Be familiar with central office support available to the school; and
- 2.—Make a school crisis plan, crisis management handbook, and emergency management kit readily available to appropriate staff.

In the event of Charter School crisis:

- 1.—Remain at your respective location until the end of the school day;
- 2.—When all students and staff members have left campus for the day, be prepared to report to the Executive Director; and
- 3.—Perform tasks assigned by the Executive Director.
